Test Results

Our practice will be in touch with you should you require further follow up from any test completed. If you would like to discuss your results with your GP or would like a copy of your results, please make an appointment.

What is a Nurse Practitioner?

A Nurse Practitioner (NP) is a Registered Nurse with the experience, expertise and authority to diagnose and treat people of all ages with a variety of acute or chronic health conditions. NPs have completed additional university study at Master's degree level and are the most senior and independent clinical nurses in our health care system.

Did you know that Nurse practitioners:

- Have practised in Australia for 21+ years
- Provide health care in all states and territories in Australia
- Can provide patient rebates through Medicare
- Provide prescriptions and access to PBS medicines
- Can refer patients to hospitals and specialists
- Can order x-rays and diagnostic tests
- Are registered with the Nursing and Midwifery Board of Australia (NMBA)

Nurse Practitioners work as key members of the healthcare team and collaborate with other nurses and healthcare professionals including GPs, medical and surgical specialists, physiotherapists, dieticians, occupational therapists, social workers, and many others.

Reynella Family Care are privileged to have two nurse practitioners (Fortune and Chris) who assist our team in delivering excellent healthcare to our valued patients.

**Reynella Family Care will be closed on
Monday 7th October.**
